

FRONTEND PROJECT SETUP AND REPOSITORY

Week 5 Submission Template

Due: September 5, 2026

Project Overview

Project Title: Web-Based Digital Flower Shop with Online Ordering, Custom Bouquet Builder, and Order Management to Craft Wrapped Haven

Group Name: ALT F4

Project Manager: Divine Grace G. Antigo

Team Members:

- 1. Ariza Garcia
- 2. Jan Christopher Abacan
- 3. Romar Villafuerte
- 4. Ivan Wayne Biore
- 5. Mike Lacebal Jr

1. Development Setup

Repository Platform: GitHub

Project Branch: master

Frontend Technology: HTML, CSS, JavaScript, Bootstrap 5

README Status: Completed & Updated

Repository Link: <https://github.com/Romarmalakass/ALTF4-FlowersOrdering>

2. Initial Implementation

Completed Setup Tasks:

- Created the initial frontend project structure for the Digital Flower Shop.
- Set up the folders and files needed for the website (assets/css, assets/js, assets/images).
- Prepared the homepage and basic navigation structure.
- Added the initial HTML, CSS, and JavaScript files.
- Created the GitHub repository and organized the project files.

Implemented Screens / Components:

- Homepage / Main Landing Page (index.html)
- Navigation Bar (bloom-navbar with responsive drawer and cart badge)
- Flower Product Cards (flower-card)
- Basic Bouquet / Product Section
- Buttons for navigation to different sections (btn-bloom-primary, btn-bloom-outline)
- Reusable layout and content components (Footer, Modals, Category Filters)
